TECHNICAL SPECIFICATION

PRODUCT CHARACTERISTICS

MATT ASA Full Body Core
(Top to bottom Single colour material)

Panel Structure

TTCR Technology
Zero Matt Finish

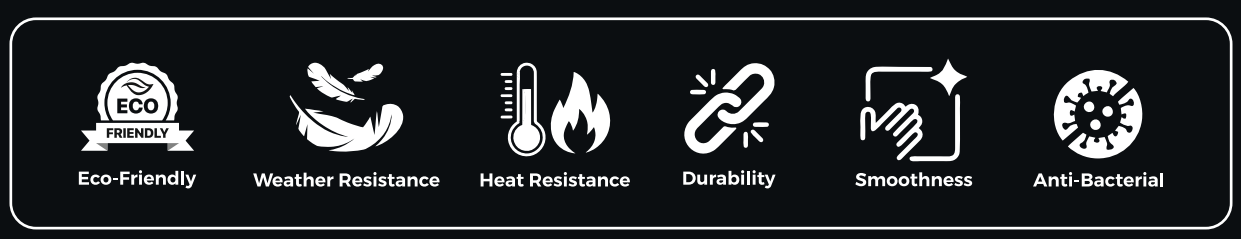

- **HIGH THERMAL STABILITY**
  superior to other highly durable product when heat tested.
- **SCRATCH RESISTANCE**
  strong scratch resistance compared to other resins so it has strong surface hardness.
- outstanding weather-proof durability than other resins.

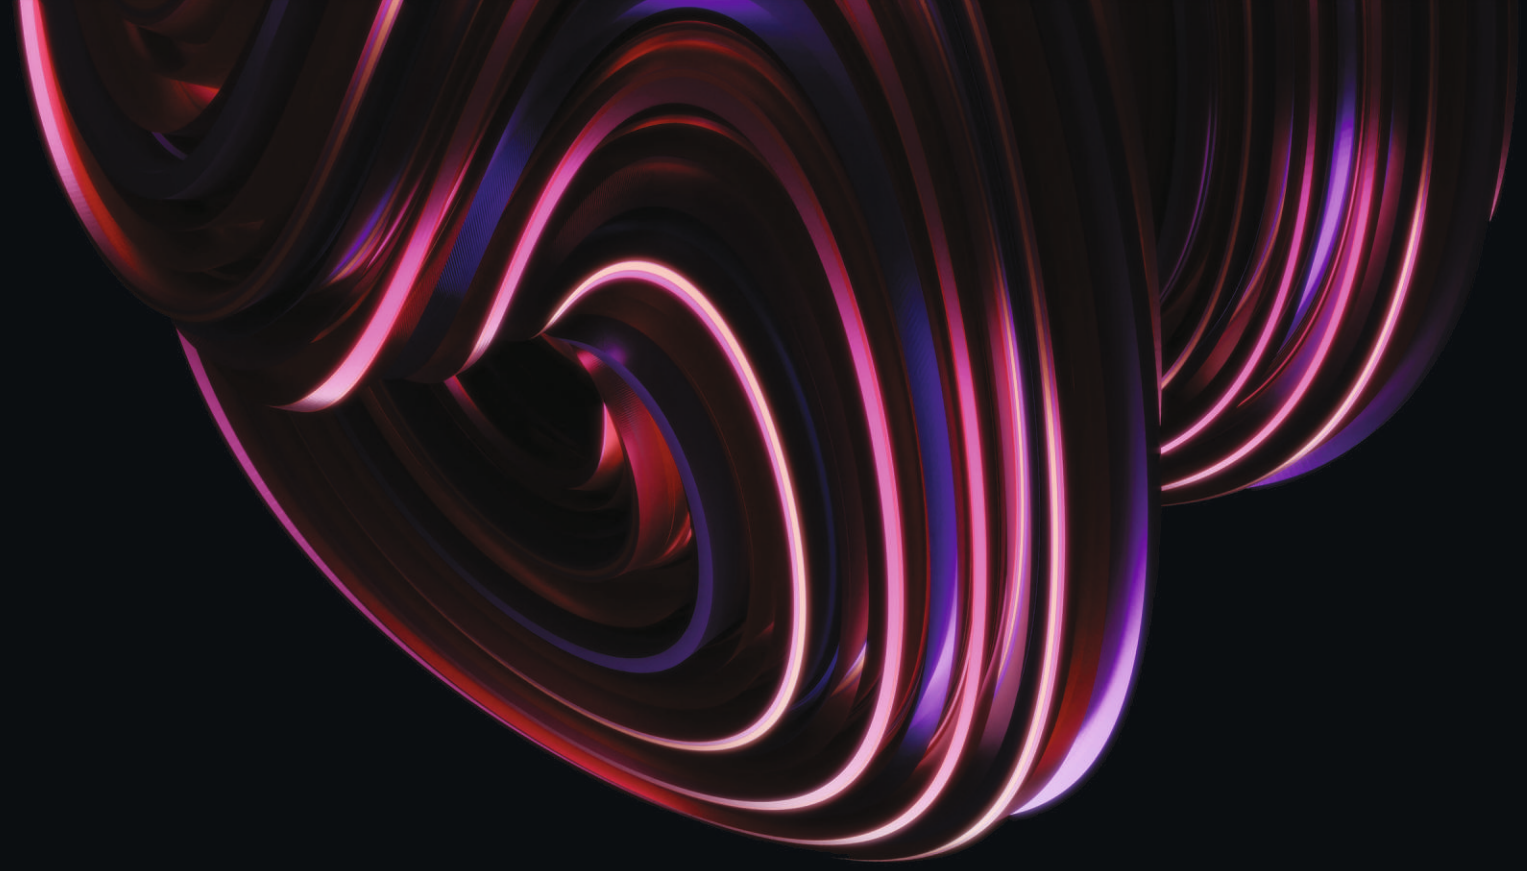

THICKNESS : 1 MM (+/-10) (Same as sample use in brochure)

SIZE : 1220MM X 2440MM (4ft x 8 ft)

Antifinger, anti-scratch, soft touch and more environmentally friendly

- Using excimer technology, the surface has improved repair performance and is super scratch-resistant compared to similar products on the market. Extremely delicate.
- material is composed of a multi-layer structure and has stable performance.
- Complies with EU REACH regulations and food-grade environmental protection requirements.
- It does not contain plasticizers, formaldehyde, heavy metals or other harmful substances, and is truly non-toxic and odourless.
- Weather resistance gray card level 4 or above; specific colors can remain weather-resistant for up to 5 years without discolouration.
- The hardness is up to 1H and has good scratch resistance.
- The stain-resistance level can reach level 5 with no obvious change.
- The matte surface feels as smooth as skin, and minor scratches can be repaired with heat.
- Compared with PVC, **KRYLON** is more environmentally friendly and has stronger surface anti-fouling and scratch resistance. It is an ideal decorative material for door and integrated wall cabinet panels.
