care of laminates

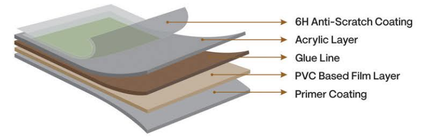

ARISCA laminate are manufactured with aesthetics and durability in mind. When used as recommended and with appropriate care, our laminates will last through the years. ARISCA laminate are easy to maintain.

- Cleaning Should be done with water and a dean, non-abrasive Cloth.
- To remove more stubborn stains, use mild household cleansers like colin IP gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damages the surface of the laminate.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30 degree Celsius may cause damage to the laminate surface.
- Do not use the laminate for purposes that it is not intended for (E.g. do not iron, chop, hammer or expose the laminate to open flame.)
- Outdoor application of the laminate with exposure to direct sunlight and weather conditions are not recommended.
- UV rays may reshape the laminate.
- Gloss surfaces are recommend only for vertical application.
- Do not use thinner and solvent on the surface of the ARISCA laminates. This may cause discolouration of the surface.
- Typically confirm to internationally recognize technical standards.
- Have a thickness balance of +/- 10%
- Peel off the protective film after processing.

merge with edges

Edge bending and sustainability. To achieve a smooth sleek look, shiny and reflective surfaces like acrylic sheets are the solution. The gloss edging and bandings with ARISCA protects orange peeling of the edges.

- Gloss level > 96 gloss points
- Incomparable surface calm(no orange peel)
- Monolithic look between board and edge.
- Wide range of colors combined with trending high gloss acrylic sheets.
- Acrylic edge- banding made with same colour foil of acrylic sheets.

ARISCA is not responsible for any damage, cracks, bubbles or colour fading if the sheets are not checked when delivered and are not properly applied as instructed above.

Pannel Structure

SUPERIO-ASA ECO-FRIENDLY MATERIAL
Antifinger, anti scratch, soft touch and more environmental friendly

Using excimer technology, the surface has been improved repair performance and is super scratch-resistant compared to similar SUPERIO-ASA products on the market. Extremely delicate.

SUPERIO-ASA material is composed of multi-layer structure and has stable performance

Comply with EU REACH regulations and food-grade environmental protection requirements.

It does not contain plasticizers, formaldehyde, heavy metals and other harmful substances, and is truly non-toxic and odourless.

Weather resistance gray card level 4 or above, specific colors can be weather-resistant for up to 5 years without discolouration.

The hardness is good up to 1H and has good scratch resistance.

The stain resistance level can reach level 5 with no obvious change.

The matte surface feels as smooth as skin, and minor scratches can be repaired with heat.

Compared with PVC, SUPERIO-ASA is more environmentally friendly and has stronger surface anti-fouling and scratch resistance.

It is a very ideal decorative material for door and wall integrated cabinet door panels.
